## About Me

I am a committed and organized person who enjoys developing new skills and continues to learn. I am highly motivated and eager to start a new project.

## Experiencia

### E-commerce Application Personal Project

*Python | Django | HTML | CSS | Bootstrap*

- I learned how to prepare the static files for deployment on Azure.
- I managed to implement authentication and be able to view the shopping cart.
- I used the MVC design pattern.
- I broke down the application into small parts, also known as Microservices.
- I learned the concept of Object-Relational Mapping (ORM).

### Task Application Personal Project

*Python | Django | Django REST Framework | React | Bootstrap*

- I learned how REST API works by making a call to the Back-End API, and it responded with the requested information.
- I learned how two servers, the Front End and the Back End, are configured for development.

### Team Leader of Commercial

*Gas Natural Fenosa | 2017 - 2018*

I was in charge of a small group of 5 people. My role involved training new candidates, teaching them about the product, gas and electricity rates, and services. I instructed them on the types of discounts and contracts available and how to apply them. Additionally, I guided them on measuring a customer's annual consumption and, based on that, applying the appropriate rate for each client.

- I acquired skills in: Teamwork, leadership, and commitment.
- I developed an open and proactive mindset to problem-solving.

In my **Portfolio** and on **GitHub**, you can see more projects.

## Programming Skills

- |            |              |                                 |                |           |
|------------|--------------|---------------------------------|----------------|-----------|
| • Python   | • Pandas     | • ETL                           | • Azure        | • GitHub  |
| • SQL      | • Numpy      | • Data Analyst                  | • Azure DevOps | • Git     |
| • NoSQL    | • Seaborn    | • Data Management               | • Docker       | • JSON    |
| • Big Data | • Matplotlib | • Tableau                       | • Kubernetes   | • Jupyter |
| • Power BI | • PostgreSQL | • Methodologies: Agil and Scrum | • Cloud        | • Colab   |
|            |              |                                 |                | • VSC     |

## Academic Education

### Higher Degree: Administration and Finance

*IES Las Canteras, Madrid. 2015*

- I carried out my internship at a consultancy, The Last Consulting SL, in Collado Villalba, Madrid

### High School

*IES Infanta Elena, Madrid. 2013*

## Additional Training

### Course of Big Data

*The Valley Digital Business School. 08/2022- 12/2022*

- Learned Technologies: Python, SQL, NoSQL, Cloud, Databricks
- Other concepts: ETL, Power BI, Data Analyst, Google Analytics, DataSet, Machine Learning, Google Colab y Tableau.

### Course of Computer Systems Programming

*Academy Impulso06. 11/2021 - 06/2022*

- Learned Technologies: Java, Spring Boot, HTML, CSS, JavaScript, Servlet, Apache Tomcat, SQL, MySql.
- Other concepts: MVC, Networks, SOLID, Web Client-Server.

## Certifications

- Data Analysis with Python - IBM. 2023
- Data Visualization with Python - IBM. 2023
- Introduction to Containers Docker & Kubernetes - IBM. 2023
- Introduction to Cloud Computing - IBM. 2023
- Google Analytics - Google. 2022

## Languages

- Spanish: Bilingual / Native
- English: B2

## Soft Skills

- |                     |                   |                       |
|---------------------|-------------------|-----------------------|
| • Teamwork          | • Flexible        | • Adaptability        |
| • Commitment        | • Organized       | • Continuous Learning |
| • Initiative        | • Communicator    | • Creative            |
| • Analytical Skills | • Proactive       | • Self-Confidence     |
| • Responsible       | • Problem-solving | • Resilience          |
